

THE 1ST QUARTER OF 2026

20 NATUR-PACK

NATUR-PACK NEWS

Hello,

we are pleased to present the quarterly overview of OZV NATUR-PACK's activities for **the 1st quarter of 2026**, which you may have seen on our social media channels, website, and in the media.

In February, we also marked the **20th anniversary of NATUR-PACK's establishment**. This important milestone would not have been possible without your trust and long-term cooperation – thank you for contributing with us to responsible waste management.

Your cooperation allows us to continue developing the separate collection system and to support responsible waste management.

Thank you for being part of this shared effort.
